PROVINCIAL GRAND LODGE OF MARK MASTER MASONS OF LONDON

The Carpathian Mountains represent the backbone, the geographical heart and a cultural symbol of Romania, offering natural diversity (Eastern, Southern, Western Carpathians / Apuseni Mountains), a varied relief (mountains, hills, plateaus) essential for the economy (resources, tourism) and a rich biodiversity (brown bear, wolf, chamois), being a fundamental component of the national identity, from landscapes to traditions.

The RMS Carpathia was a British passenger liner, famous for its heroic rescue of over 700 survivors from the sinking RMS Titanic in 1912, named after the Carpathian Mountains; it was a Cunard steamship that served immigrants and tourists until it was sunk by a German U-boat in World War I in 1918, cementing its legacy as a symbol of compassion and courage at sea.
