All proceeds will support the Berkshire MS Therapy Centre

Why this charity you may ask?

I became a disabled person 24 years ago after being diagnosed with MS in 1994 at the ripe 'young age' of 28.

During my first ten years of living with MS I had two sons after being medically retired from my career.

I hear you say "That wouldn't happen these days" ... (or would it?).

I have had my fair share of discrimination due to the lack of understanding and /or willingness to listen to what I need to be put in place to enable me to fully participate in what society has to offer.

This has energised me to learn about disability rights and secure the services that disabled people are entitled to; be it access to information, a building or a job.

Places like the Therapy Centre offer tremendous support to people with MS to help them overcome barriers and enable them to live rather than just to exist.

I would like our fundraising to go towards helping these wonderful people to continue to provide support, advice and friendship to so many.

Our fundraising in 2018

My son Ben is taking on his own challenge to raise funds to support the centre too.

Ben (Benjamin to me) has demonstrated that he is more than capable of completing this challenge and has proved this over the past five years.

Being a cyclist with a competitive nature he wants to push himself to new limits.

Ben target is to complete the 100 mile route in **under four hours!**

Not only will this be his personal best time it means he will be cycling at an average speed of 25 mph!

Ben said "By supporting this wonderful centre I hope that I can help to make life for those with Multiple Sclerosis easier".
